## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 53 – 58 are rejected under 35 U.S.C. 102(b) as being anticipated by Snyder (U.S. Pat. No. 4,028,056). Regarding claims 53 – 58, Snyder anticipates the recited method of analyzing a sample, wherein the method incorporates the steps of providing a sample chamber comprising a solid-phase; adding an immiscible liquid to the sample fluid to form a plurality of volume segments; and including optical detection (see col. 1, line 1 – col. 8, line 12; figures 1 – 5).

#### *Response to Arguments*

Applicant's arguments and amendments, filed 3/15/2004, with respect to the rejection of claims 32 – 50 and 52 have been fully considered and are persuasive. The rejection of claims 32 – 50 and 52 has been withdrawn.

Applicant's arguments with respect to claims 53 – 58 have been considered but are moot in view of the new ground(s) of rejection.

#### *Allowable Subject Matter*

Claims 32 – 50 and 52 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 32 and 52, the cited prior art neither teach or fairly suggest an analyzer and a method of using the analyzer, wherein the analyzer further incorporates a

supply line fluidly coupled to the sample chamber and supplying a mixture of a chamber solution and a fluid immiscible with the chamber solution to the sample chamber, wherein the sample chamber is configured such that a film of chamber solution is formed between the measuring surface and the immiscible fluid when the mixture is in the sample chamber.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
